Wolf Monitoring Activities

Smucker captured and collared a 2-year old female in the Trail Creek pack on the Lost Trail / Chief Joseph Pass area.

Bradley has been working in the areas of the E. Fork Bitterroot, Divide, and Sula packs at the south end of the Bitterroot Valley.

Laudon and Rich wrapped up trapping efforts in the Swan Valley for the Squeezer pack and an unknown pack adjacent to it. Pups and an unknown radio-collared wolf were confirmed in the unknown pack. They scanned the list of “missing” collar frequencies (collared wolves that are no longer in the packs in which they were originally captured) and did not hear any.

Boyd and Whitehead have been working in the Lazy Creek (either did not use last year's den or denned in a different place) and Murphy Lake (denning and pups confirmed) pack territories

Asher has been working along the Absaroka – Beartooth face scouting and following up on wolf reports.

Wolf - Livestock Activities

Asher provided less-than-lethal munitions training (how to use cracker shells and rubber bullets to non-injuriouly haze/harass wolves) to a landowner in the Roscoe area (west of Red Lodge) on the 19th. The ranch has a range rider project going this summer sponsored by Defenders of Wildlife.
